RFP

**RESIDENTIAL CURBSIDE SOLID WASTE, YARD WASTE AND
RECYCLABLE COLLECTION SERVICES
RESPONSE TO QUESTIONS RECEIVED FROM POTENTIAL BIDDERS**

Questions Received on September 28, 2023 at 10:42 AM and Corresponding Responses from the City:

Question #1: Where does your current recycler hauler dispose of your recycling material?

Response to Question #1: The current recycler disposes with two vendors. Pratt Industries in Conyers, Ga. and West Rock in Lawrenceville Ga.

Question #2: What is the contamination percentage of your recycling?

Response to Question #2: According to our current recycling vendor the standard waste contamination in the recycling transfer site they use can be no greater than 15%. Any contamination greater than 15% will result in a fine issuance. They stated for the past two years they have not received any fines from the Clarkston recycling program. Based on the current vendor's information, the city concludes that the recycling contamination has been less than 15%.

Question #3: Are all residents required to participate in recycling?

Response to Question #3: The City Manager will require that all residents be issued a container. It should be noted that recycling is not mandatory in the City.

Question #4: Customer service 3.6 standards can you change the language to state by next business instead of 6 p.m.?

Response to Question #4: Staff will discuss with the administration and if deemed appropriate, an addendum will be issued

Question #5: Recycling Curbside – must states cart must be 64 gallon. Can provider use a 96 gallon recycling cart instead?

Response to Question #5: Staff will discuss with the administration and if deemed appropriate, an addendum will be issued
