PURPOSE:

To discuss imposing a moratorium on variances from the city sign ordinance

NEED/ IMPACT:

In light of the City Council's direction to Staff to develop and execute a process for revising the city's sign ordinance, it may be necessary to restrict new sign permit requests to the city by way of a moratorium on variances to the current sign ordinance. Prohibiting the approval of sign permit requests that require variances would allow Staff to conduct its ordinance revision process without the concern of new sign permits being issued that may exceed the provisions of both the current ordinance, as well as those of the revised ordinance that may result from Staff's revision process.

RECOMMENDATIONS:

No Staff recommendation.
