PURPOSE:

To approve the contract and Resolution for Acquisition of Right of Way Federal or State-Aid Project non-Reimbursable with the Georgia Department of Transportation.

NEED/ IMPACT:

The City Streetscape & Pedestrian Enhancement project began with design services in the spring of 2014. The project has met the GDOT schedule at various critical milestones beginning with the approval of the Concept Report in March of 2015 and Environmental Approval in February of this year. The Preliminary Engineering plans have been approved by GDOT and the Right-of-Way (ROW) plans were approved in June of this year.

In order for GDOT to certify the ROW plans, the City must execute the attached contract with GDOT as well as pass the attached Resolution. The contract ensures that the ROW acquired by the City will be in accordance with certain specified requirements of the Federal-aid Highway Act of 1970, as amended and regulations of the Department of Transportation in order for construction costs to be eligible for Federal participation.

RECOMMENDATIONS:

Staff recommends the City Council approval the attached contract and Resolution for Acquisition of Right of Way Federal or State-Aid Project Non-Reimbursable with the Georgia Department of Transportation.
