**PROJECT**

Question #7 (received October 6<sup>th</sup>, 2017): What is the engineering estimate and budget for the project:

Answer: The “Probable Estimate of Construction Cost” ranges from \$870,000 to \$1,051,000. This range of estimates were derived from three independent engineering/landscape architecture firms with two estimates developed within the past 30 days.

The city budget for this project is also within this range.
