PURPOSE:

To approve the 2016 Local Maintenance Improvement Grant (LMIG) application submittal to the Georgia Department of Transportation.

NEED/ IMPACT:

Each year, Georgia cities and counties have the opportunity to submit applications to GDOT to receive funds earmarked for transportation and infrastructure improvement. Successful application require a commitment of the governing authority to match the LMIG funds, successful implementation of previous LMIG projects and appropriateness of the proposed project.

The grant amount is determined by a formula that considers a community's population and total centerline mileage in July of the previous calendar year. Based upon this formula, Clarkston's original funding amount was \$41,433.97. Staff requested, and was granted special consideration from GDOT to include the increased population and centerline mileage gained as a result of annexation which became effective in January, 2015. Consequently, the allocation for 2016 has been increased to \$64,148.00.

RECOMMENDATIONS:

Staff recommends the City Council approve the submittal of the 2016 LMIG application and project list to the Georgia Department of Transportation.
