2016 Proposed Operating & Enterprise Fund Budget

2016

Submitted 11-13-2015

City Manager

Keith Barker

1/1/2016

MEMORANDUM

To: **Mayor Ted Terry and City Council Members**

From: Keith Barker ICMA-CM, City Manager

Date: November 13, 2015

Re: **Proposed 2016 Fiscal Year Budget**

Please find attached the proposed FY 2016 All Funds Budget for the City of Clarkston. This budget was compiled based upon the input and assistance from each department. The proposed budget, as presented, is balanced, i.e., revenues equal expenditures, in accordance with Georgia State Law.

BUDGET OVERVIEW

The total proposed FY 2016 Expenditure Budget for all funds is \$5,737,461. The total proposed FY 2016 Revenue Budget for all funds is \$5,737,461. The proposed FY 2016 General Fund operating budget of \$5,103,811 represents a \$394,034 increase as compared to FY 2015. In addition to the General Fund operating budget, a Capital Projects budget, a Matching Grants Fund budget and a Community Funds budget have been included in this budget document. Segregation of these expenditure types will allow for a more transparent budgeting process. Details regarding expenditures in all four categories are included in this budget transmittal letter.

Administration

Total expenditures in the Administration Department have been reduced from \$1,283,074 in FY 2015 to \$924,204 in FY 2016. Personnel costs such as, Group Health Insurance, Retirement and Worker's Compensation Insurance have been allocated to each department versus including those expenditures in Administration. Allocating Personnel costs to the department budgets will provide a more accurate picture of the cost to deliver that particular service.

Due to the addition of staff as a result of annexation and an increase in health insurance rates; employee benefit related costs have increased. The total cost for Group Health Insurance will increase from \$275,844 in FY 2015 to \$374,148 in FY 2016. This represents an increase of 35%; however costs remain reasonable as this amount represents only 7.3% of total General Fund Operating expenditures.

The total cost for Retirement Contributions has increased from \$176,460 in FY 2015 to \$201,926 in FY 2016. At 3.9% of total General Fund Operating expenditures, this amount is still within acceptable industry standards for this expenditure category. The Retirement Fund continues to be 100% funded.

Police

For FY 2014, the Clarkston Police Department staffing level was eighteen (18) full time personnel. The current staffing level in FY 2015 is twenty seven (27) full-time personnel. Full-time personnel are organized as follows; a Police Chief who manages the overall administration of the department, an Assistant Chief that commands the operational uniform and criminal investigations divisions, a Captain that is currently assigned to a DEA Task force, three (3) detectives and thirteen (16) patrol personnel, four (4) of whom are Sergeants serving as shift supervisors.

Filling all of the vacant police officer positions has been a challenge. Despite efforts to remain competitive such as; increasing the starting salary and providing signing bonuses for new employees, the department has maintained an average of four (4) vacant police officer positions throughout 2015. The lack of qualified police officer candidates is not unique to Clarkston as surrounding municipal agencies are reporting similar experiences with recruitment efforts. As a result of this continuing vacancy rate and in an effort to propose a fiscally conservative budget, I am recommending that we freeze three (3) of the four (4) vacant police officer positions in FY 2016 until we receive our tax digest in May and finalize our millage calculations.

At present, the department operates utilizing there (3) eight-hour patrol shifts working seven days a week. When fully staffed, two shifts have four (4) personnel assigned and the busier evening shift has five (5) officers assigned. With vacancies, vacation and sick leave and training and court appearances, the number or officers active on each shift often drops to two (2) to three (3) officers per shift respectively. Therefore, I am recommending that the department change its current shift schedule format to 4 (12) hour shifts effective January 1, 2016. Transitioning to (12) hour shifts will increase the number of officers assigned to each shift, provide for a Sergeant to supervise each shift and provide an opportunity for officers to periodically have off days that fall on a weekend day. Transitioning to a (12) hour shift will also increase gross pay for police officers by an average of \$2,400 - \$2,800 annually which will aid in our recruitment and retention efforts. Transitioning to (12) hour shifts will add approximately \$45,500 to Personnel cost for the department in FY 2016.

Municipal Court

There are currently five (5) full time positions authorized in the Municipal Clerk's Office; one (1) Records Manager/Clerk of Court, one (1) Deputy Court Clerk, three (3) Court Clerks. Costs associated with this function historically have been comingled with the Police Department. For FY 2016, expenditures for this department have been segregated to reflect the true cost of providing this service.

Public Works/Building & Grounds/Parks

Currently the Public Works department contains eight (8) authorized positions; a Public Works Director, two (2) Crew Leaders, one (1) CDL Driver/Equipment Operator and four (4) Laborers. The City of Clarkston has increased the number of facilities maintained from two to four over the last two years. Additionally, the size of the city will again grow through annexation adding an additional 143 acres in FY 2016 to the 241 additional acres gained through annexation in FY 2015.

Maintaining this additional public right-of-way gained through annexation will require additional staffing. Accordingly, I am recommending the addition of one (1) Skilled Equipment Operator position and one (1) parttime Custodial position to this department in FY 2016.

The Public Works Department has no working heavy equipment in its inventory. The current Skid Steer Loader is 17 years old and was received as surplus equipment from DeKalb County in 2009. This equipment has far exceeded its expected life cycle. The Skid Steer is currently inoperable and the City has spent \$7,500 in repair costs over the previous three years. The cost to repair this piece of equipment is greater than its value and replacement is the financially prudent course of action. The City currently does not own a Backhoe Loader. Both pieces of equipment are basic machinery that any Public Works Department must possess to function adequately. Lacking this type of equipment significantly reduces the department's capacity to do basic road and sewer system infrastructure repair and maintenance work. Currently this work is being performed by third party vendors at much greater costs.

The cost of the Backhoe Loader is \$98,918. The cost of the Skid Steer is \$43,568. The total cost for both will be \$142,486. The equipment will be purchased utilizing a 60 month lease purchase agreement with a fixed interest rate of 3.2%. Monthly payments will be \$2,618.29. Total payments with interest will be \$154,479.11. The monthly cost for the Skid Steer will be appropriated from the Public Works general fund budget. The monthly cost for the Backhoe will be appropriated from the Storm water Utility Fund budget.

Although this purchase was approved by the City Council in November of 2015, lease payments will commence in FY 2016 and accordingly, have been allocated in this budget.

In addition to the Backhoe Loader and Skid Steer, I am recommending the purchase of one additional Hustler Riding Lawn Mover at a cost of \$8,000 to accommodate the increased service area to be maintained. I have also allocated \$15,000 in the Capital Budget for electrical wiring improvements to the pavilions at Milam Park.

Planning and Development

The department of Planning and Development is responsible for all zoning, plan review, building inspection and permitting functions. The Planning & Development Manager has been assigned to manage the activities of our technical consultants associated with these activities in addition to providing technical assistance to the Planning and Zoning Board, Mayor and City Council, and the City Manager. Professional consultant fees for zoning, planning and building Inspection services are currently budgeted in this department.

Effective code enforcement will be critical to the future success of Clarkston's economic development efforts. Given the age of many of our commercial, retail and multi-family dwellings, greater focus will be required to address the many property maintenance issues that continue to persist. There will also be a pronounced need to bring the many commercial, retail and multi-family businesses obtained as a result of annexation, into compliance. Therefore, I am recommending that we continue to contract with a private vendor to provide building and fire code inspections and code enforcement services in FY 2016.

In lieu of recommending additional staff and to continue to maintain the ability to scale resource allocations up or down depending on need and activity, I am recommending that we continue to contract with a vendor to provide on-call staff augmentation for Planning services.

Accordingly, a total of \$167,500 has been allocated to the Professional Services line item to fund these various professional services.

Capital Projects/Debt Service

During the Regular Council meeting held on August 6, 2013, the City Council approved a multiyear Sidewalk Improvement Plan. Project components were selected utilizing the following criteria:

- Sidewalk systems that are on major transportation corridors and are utilized by a significant number of pedestrians are high priority
- Exclude sidewalk systems that are located within the project limits of the "City Streetscape Program"
- Installation of new sidewalks where pedestrian demand is high takes priority over repairing existing systems
- Maximize utilization of LMIG funding

During FY 2016, Phase II of the Sidewalk Improvement Plan will be constructed which will include the following section:

Phase II

East Ponce de Leon Ave from West Smith Street to Cobblemill Apartments

The estimated cost to complete Phase II of the Sidewalk Improvement Plan is \$190,000. LMIG grant funds totaling \$64,000 from the Georgia Department of Transportation as well as HOST Revenue funding estimated at \$45,000 will offset the cost of this project. Therefore, \$81,000 has been included in the FY 2016 General Fund Capital Projects budget to complete this project.

An application has been submitted the Department of Transportation to receive funds appropriated through their (REBC) Roadside Enhancement Beautification Council program. The maximum award for this gateway enhancement effort is \$50,000. If received, this grant will fund all labor and material cost to install a GDOT approved landscaping project up to a maximum of \$50,000 at the I-285 and Church Street exit ramp. The total cost for this project is estimated to be \$125,000 and will occur over the next two fiscal years, FY 2016/FY 2017. Accordingly, \$25,000 has been allocated to this expenditure category to cover project design and permitting costs in FY 2016. Revenue from the grant award of \$50,000 will provide an offset of this expenditure.

In 2005, the City of Clarkston was awarded a \$3.6 Federal Highway Administration Earmark for construction of a Streetscape project. Acceptance of the FHWA grant funds in 2013 required a guarantee to provide a local 20% match for project construction costs in addition to a commitment to cover significant portions of the engineering, design, environmental assessment and right-of-way acquisition costs. In order to provide funding for the required local match, Clarkston received a GTIB (Georgia Transportation Infrastructure Bank) loan of \$2 million dollars administered through the State Road and Toll-way Authority. Repayment of this loan will not commence until after the conclusion of the four (4) year "spend down" period, which is 2018. At the conclusion of the "spend down" period, quarterly payments of \$39,725 will commence. Capital project expenditures related to this project in FY 2016 are estimated at \$350,000 and therefore, this amount has been included in the FY 2016 Capital Projects Expenditure budget. Reimbursements from the loan proceeds will provide a 100% offset of this expenditure.

The City Hall Annex project, which began in FY 2012, was successfully completed in FY 2013. Funding for the construction of this project was obtained through a GMA Lease Purchase agreement. This

agreement includes a \$700,000 loan amortized over fifteen (15) years with an interest rate of 3.22%. To cover the required loan payments, \$59,000 has been included in the FY 2016 budget.

The Public Works facility was successfully completed in FY 2014. Funding for construction of this facility was obtained through a five (5) year \$325,000 GMA Lease Purchase agreement at an interest rate of 1.96%. The annual cost of the loan repayment is \$72,200 and has been included in the FY 2016 budget.

The total FY 2016 General Fund appropriation for Capital Projects is \$479,600. The total FY 2016 General Fund appropriation for Debt Service is \$191,141.

Storm Water Utility Fund

Although the City began collecting Storm Water Utility fee payments in 2009, very few if any storm water repair projects were initiated or completed. This resulted in a significant number of drainage improvement and storm water repair and maintenance projects being completed from FY 2012 to FY 2014. This heightened but necessary level of project activity depleted the Storm Water Utility Fund reserves.

In the original FY 2015 budget, \$71,000 was allocated to restore the Storm Water Fund Balance. However, during the FY 2014 audit, it was discovered that the Storm Water Utility Fund had a deficit balance owed to the City General Fund of \$221,451 from FY 2013 and FY 2014 due to allocations of payroll expenditures that were not properly reimbursed to the General Fund at the time of expenditure. In order to correct this interfund debt, we have minimized FY 2015 spending from the Storm Water Utility Fund to be able to reimburse the General Fund \$100,000 in FY 2016. Additionally, we have budgeted to reimburse the General Fund another \$80,000 in FY2016, with the remainder of \$41,451 to be settled in FY 2017.

There still exists minimum reporting requirements determined by the Georgia Environmental Protection Division and we will continue to implement the City's Storm Water Management Plan. Funding to cover emergency capital repairs will also be required. Therefore, this budget allocates \$179,600 for storm water related repairs and activities. Of this amount, \$80,000 will be transferred to the Storm Water Fund Balance in FY 2016 to help replenish this fund.

Storm water Utility Fee revenue continues to remain constant. The FY 2016 revenue estimate for Storm Water Utility Funds has been increased to \$179,600 as compared to \$177,050 in FY 2015. This slight increase is due to additional land mass acquired as a result of annexation.

Sanitation Enterprise Fund

The Sanitation Enterprise Fund continues to perform adequately. Projected expenditures and revenues for FY 2016 have been increased as a result of adding approximately 86 additional households to our current contract with Waste Management due to annexation. Expenditures and Revenues have been set at \$185,000 for FY 2016. The contract with Waste Management provides for an annual increase commensurate with the CPI. The CPI for 2015 has been less than 1%. I do not anticipate an increase next year. However, in anticipation of a fee increase in 2017 and to ensure that sanitation fund shortages are not covered by the General Fund and to ensure that administrative costs associated with managing the fund are recouped, I anticipate requesting an increase in the sanitation fee for FY 2017.

Grant Funds

The City of Clarkston applied for and received three (3) grant awards that will be received during the FY 2016 budget year. The City will receive \$64,000 from the Local Maintenance & Improvement (LMIG) state grant fund. These grant funds, administered by GDOT, will be utilized to offset Sidewalk Improvement Plan construction costs in FY 2016. The City will also receive a grant award of \$50,000 from the DeKalb County Board of Health, "Minority Youth Violence Prevention" program in FY 2016. The purpose of this grant will be to develop intervention programs for minority youth, (primarily males) between the ages of 10 and 18.

The City of Clarkston has completed a Roadside Enhancement and Beatification grant which has been submitted to the Georgia Department of Transportation. If awarded, this \$50,000 grant will be utilized to improve landscaping and provide for construction of a gateway monument on the I-285 and Church Street exit ramp.

Community Fund

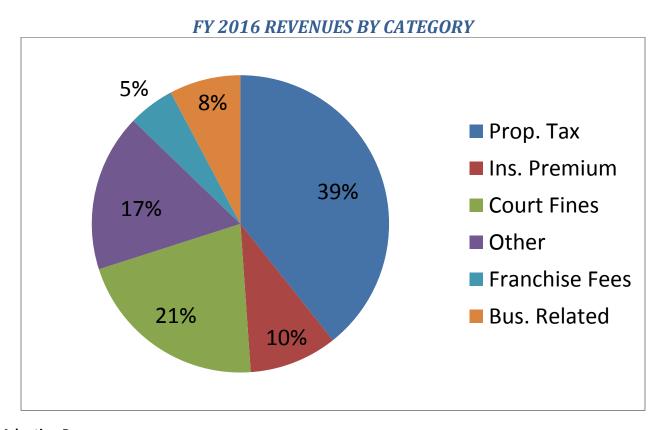

The Clarkston Cultural Fest committee has requested funding for the purpose of offsetting expenses related to the production of an annual festival. Accordingly, staff has included \$4,000 in appropriations in the Community Fund budget.

Revenues

The proposed FY 2016 Total Revenue All Funds estimate of \$5,737,461 represents an increase of \$310,034 as compared to \$5,427,427 in FY 2015, which represents a 5.7% increase. The revenue estimate for FY 2016 represents an increase of \$1,334,182 or 30.3% as compared to actual revenues in FY 2014. Most of the increase in revenue is attributed to the 3 annexations that have occurred over that period of time.

As depicted by the chart below, the largest revenue categories by percentage are; Real Property Taxes at 39% and Municipal Court Fines at 21% of total budget. In FY 2015 Municipal Court Fines represented 26% of the total revenue budget. Additionally, significant increases in all business activity revenue categories have been realized, primarily as a result of acquiring new businesses and commercial properties through annexation and increased collection efficiencies. Revenue estimates for business activity related line items have increased from representing only 2.8% of total revenue estimates in FY 2014, to 8% of total revenue estimates for FY 2016. The changes in where and how the City derives its revenue supports our ongoing efforts to grow and diversify the City's revenue sources.

The City opted to outsource the business license application and occupational tax collection services in FY 2014. With the addition of a Finance Director and an Accountant, business license applications and occupational tax collections will be handled internally beginning in FY 2016.

Adoption Process

The proposed FY 2016 budget will be transmitted to the Mayor and Council on November 13, 2015. Additionally, copies of this document will be available for public review at the Clarkston Branch Library, Clarkston City Hall and on the City of Clarkston website. A public hearing will be held to afford the public an opportunity to provide comments and feedback on the proposed budget at 6:30 pm on November 24, 2015 during the City Council Work session and Special Called Meeting. A budget resolution will be prepared and presented for consideration and adoption at the City of Clarkston Council meeting on December 1, 2015.

I will be happy to make myself available to you so that we may review the following budget proposal at your convenience.
